

Education

MPSTME, NMIMS University B. Tech in Computer Science CGPA: 9.22	2023 - 2027
Raghuwansh Public School HSC: 84.20 %	2021 - 2023
Raghuwansh Public School SSC: 93.10%	2021

Projects

Day Scholar In-Out Tracking System | 2025

Tech Stack: Java, HTML, CSS

- Developed a barcode-based campus attendance and access management system that scans college ID cards to record real-time entry and exit of day scholars.
- Automated attendance tracking by replacing manual record-keeping, improving data accuracy, operational efficiency, and campus security.

SchoolBridge | 2026

Tech Stack: Figma, UI/UX Design, HCI Principles, Wireframing, Prototyping

- Conducted user research to identify communication gaps between parents, teachers, and administrators, and designed a school communication application using HCI and UI/UX principles.
- Improved accessibility and real-time communication by creating user-centric workflows for three key personas: parents, teachers, and administrators.

Inventory Management System using Operations Research | 2025

Tech Stack: Python, Streamlit, Google Colab, inventorylibX

- Developed a Python-based inventory optimization model implementing EOQ, Reorder Point, Safety Stock, and Bulk Discount algorithms.
- Analyzed inventory cost drivers and generated data-driven ordering recommendations to minimize theoretical inventory holding and ordering costs.

Melanoma Skin Cancer Detection System | 2025

Tech Stack: MATLAB, Image Processing Toolbox

- Built an image-processing pipeline using Otsu Thresholding and ABCD analysis for melanoma detection on the ISIC dataset.
- Achieved approximately 90% detection accuracy by validating the model against annotated medical images and measuring predictive performance.

Word Jungle | 2026

Tech Stack: Python, Search Algorithms, Genetic Algorithm

- Gathered functional requirements and designed an intelligent hint-generation system using search and genetic algorithms.
- Improved gameplay experience by balancing hint accuracy, algorithm performance, and user engagement.

Internships

Data Science & Analytics Intern

WeIntern Pvt. Ltd. | Remote | June 2026 – July 2026

- Performed data cleaning, preprocessing, and exploratory data analysis using Python and SQL.
- Developed analytical reports and visualizations to support data-driven decision-making.
- Applied problem-solving and statistical analysis techniques to real-world datasets.

Certifications

Data Visualization: Empowering Business with Effective Insights – Tata (Forage)

GenAI Powered Data Analytics Job Simulation – Tata (Forage)

Data Science and Analytics – HP LIFE

Introduction to Software Engineering Job Simulation – Commonwealth Bank (Forage)

CORE SKILLS

Technical Skills

- **Programming Languages:** Python, Java, SQL, C++
- **Data Structures & Algorithms:** DSA
- **Database:** DBMS
- **Web Technologies:** HTML, CSS
- **Data Analytics:** Data Cleaning, Data Visualization
- **Artificial Intelligence:** Artificial Intelligence
- **BI & Productivity Tools:** Power BI, Microsoft Excel, Microsoft PowerPoint
- **Libraries & Tools:** Pandas, NumPy, Matplotlib, Scikit-learn, Jupyter Notebook, VS Code

Soft Skills

- Analytical & Problem-Solving
- Teamwork
- Technical Writing
- Adaptability
- Quick Learning
- Time Management
- Communication Skills

Achievements and Positions of Responsibility

- **LogisticsNow Hackathon 2026** – Participated as a member of Team "The Last Minuters", collaborating on logistics-focused problem solving.
- **Deloitte Hackspllosion 2026** – Successfully completed the learning program and earned a Level-Cleared Certificate.
- **Silver Medalist** – Nimar Sahodaya Basketball Competition.
- **Organizing Committee Member** of Marketing in Saturday 10am Club
- **Captain**, School House Captain
